PROFESSIONAL SUMMARY

Aspiring Data Scientist and AI/ML Engineer with hands-on experience building end-to-end machine learning pipelines, LLM fine-tuning (LoRA, RAG), and full-stack AI applications. Proficient in Python, TensorFlow, PyTorch, and the MERN stack, with strong foundations in data analysis, deep learning, and generative AI. Proven problem-solver—SIH College Winner and 4th place at Srujana Hackathon—passionate about leveraging AI to solve real-world problems in education, biodiversity, and privacy-preserving ML.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, HTML, JavaScript, SQL

Technologies & Tools : Machine Learning, Deep Learning, Generative AI, MERN Stack, Docker, Kubernetes, Power BI, Tableau, NLP, MongoDB, LangChain, LLMs, Git, RAG, LoRA, VS Code, GitHub

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib, Hugging Face, Flask, Next.js, Node.js, Express, TensorFlow, PyTorch

WORK EXPERIENCE

Data Science Intern

Sep '24 — Oct '24

Teachnook (Teachscape Online Learning Services Private Limited)

Bangalore, India

- Worked on real-world data science problems using Python, Pandas, NumPy, and Scikit-learn, performing data cleaning, EDA, and predictive modeling.
- Built and evaluated ML models (regression & classification), improving prediction accuracy through feature engineering and hyperparameter tuning.
- Visualized insights using Matplotlib and Seaborn to derive data-driven conclusions and present findings to mentors.
- Collaborated in an agile team environment, gaining exposure to Git-based workflows and industry best practices.

EXTRA-CURRICULAR ACTIVITIES

President, Acharya Institute - Sahitya Club

Bangalore

Jul '24 — Present

- Spearheading literary and cultural activities including poetry competitions, rap battles, mushaira, and stand-up comedy shows during college fest Habba.
- Successfully handled event planning, budgeting, and sponsorships, ensuring high participation and engagement.
- Promoted creativity and teamwork, strengthening the cultural footprint of the institute.

Office Department Coordinator, Srishti Innovation Exchange 2025, ABVP

Acharya Institute

May '25

- Managed administrative coordination and operations for the innovation exchange event.

Artist Management Team, 25th VTU Youth Fest

Acharya Institute

Apr '26

- Coordinated artist logistics and on-ground management for an inter-college cultural event.

PROJECTS

AI-Driven Marine Biodiversity Intelligence Platform

- Developed an AI-based system integrating environmental (SST, chlorophyll, DO) and eDNA datasets to predict ecosystem stress, habitat risk, and fisheries hotspots.
- Built biodiversity modeling pipeline and GIS-based dashboard for juvenile risk mapping, early-warning alerts, and decision-support visualization.
- Enabled data-driven sustainable fisheries planning by reducing juvenile catch risk and achieving 85%+ accuracy in hotspot prediction across 500+ marine data points.

SmartClass AI – Agentic AI-Based Classroom Automation System

- Built a full-stack system using React, Tailwind CSS, and Flask/FastAPI, enabling automated attendance via face recognition with 95%+ accuracy for 100+ student profiles.
- Implemented a RAG-based AI quiz generation pipeline using LLM APIs to generate 10+ contextually accurate MCQs per PDF, reducing teacher prep time by 70%.
- Designed REST APIs and integrated frontend-backend workflows for leaderboard, quiz evaluation, and student performance tracking.

Fed-EADP-LoRA: Privacy-Preserving Federated Fine-Tuning for LLMs

- Built a federated learning pipeline with LoRA-based parameter-efficient fine-tuning to train large language models across decentralized clients without sharing raw data.

- Implemented entity-aware differential privacy with selective noise injection to protect sensitive information while preserving model utility.
- Simulated privacy attacks (membership inference) and quantified trade-offs using ϵ -budget, achieving secure training with minimal performance degradation.

AWARDS & ACHIEVEMENTS

5th Place, ThirdBell Competition, Mood Indigo IIT Bombay	Dec '24
SIH Winner (College Level) Acharya Institute	May '25
4th Place at Srujana Hackathon Chanakya University	Oct '25
Ranked 62nd in NEC 2025 E-Cell , IIT Bombay	Nov '25

CERTIFICATIONS

Python for Data Science, AI & Development , IBM	Nov '24
Introduction to Generative AI , cloudskillsboost.google	Feb '25
Responsive Web Design , freeCodeCamp	Apr '25
Data Science Professional Certificate , KNIME	Aug '25

EDUCATION

Bachelor of Engineering in Computer Science (Data Science) , Acharya Institute of Technology , Bangalore • CGPA 8.64	Sep '23 — Aug '27
12th in PCM , Vidya Sanskar School , Patna • Per: 75	Apr '22
10th , Gyanodya Gurukul , Patna • Per: 87	May '20
